The Scientific Sessions of the American Heart Association represent three and one-half days of Invited Lectures and Investigative Reports, all conducted simultaneously and arranged to present subject areas in all fields of Cardiovascular Disease and related disciplines.

Cardiovascular Nursing Research may be focused on individuals, laboratory animals, or patients. It should study aspects of the cardiac field and contribute to new scientific knowledge or theory.

Guidelines, forms and information may be obtained from the Section on Scientific Sessions, American Heart Association, 7320 Greenville Avenue, Dallas Texas 75231.

Abstracts selected for presentation will be published in a Supplement to CIRCULATION (October, 1981).

Postmark deadline for submission of Abstracts and Scientific Exhibit applications is May 22, 1981.
Arteriosclerosis

Volume 1, Number 2, March/April 1981

REVIEW
107 Vascular Wall Growth Control: The Role of the Endothelium
Stephen M. Schwartz, Corinne M, Gajdusek, and Sydney C. Selden, III

ARTICLES
127 Proaggregatory Effect of Fasting on Platelet Aggregation in the Microcirculation of Mice with Streptozotocin Diabetes
William I. Rosenblum, Farouk El-Sabban, and Roger M. Loria

134 Cholesterol Transfer From Normal and Atherogenic Low Density Lipoproteins to Mycoplasma Membranes
Jonathan J. Mitschelen, Richard W. St. Clair, and Susie H. Hester

144 Dietary Ethanol-Induced Modifications in Hyperlipoproteinemia and Atherosclerosis in Nonhuman Primates (Macaca nemestrina)
Lawrence L. Rudel, Charles W. Leathers, M. Gene Bond, and Bill C. Bullock

156 Lipoproteins in Familial Hyperalphalipoproteinemia
Wolfgang Patsch, Ilmar Kuisk, Charles Glueck, and Gustav Schonfeld

MEETING SUMMARY
162 Fourth National Conference on Thrombosis and Hemostasis, Miami Beach, Florida, November 17–20, 1980
Executive Committee of the Thrombosis Council of the American Heart Association

163A NEWS FROM THE AMERICAN HEART ASSOCIATION
