Arteriosclerosis and Thrombosis  A Journal of Vascular Biology

Volume 13 Number 3 March 1993

Original Contributions

Induction of Murine Macrophage Growth by Modified LDLs
Satoru Yui, Toshinori Sasaki, Akira Miyazaki, Seikoh Horiiuchi, and Masatoshi Yamazaki ................................. 331

Increased Synthesis of Plasminogen Activator Inhibitor-1 by Cultured Human Endothelial Cells Exposed to Native and Modified LDLs: An LDL Receptor-Independent Phenomenon

Localization and Smooth Muscle Cell Composition of Atherosclerotic Lesions in Watanabe Heritable Hyperlipidemic Rabbits
Luca Giuriato, Marta Scatena, Angela Chiavegato, Anna Maria Cecilia Zanelato, Diego Guidolin, Paolo Paulietto, and Saverio Sartore ................................................. 347

A New Anti-inflammatory Leucine Derivative, NPC-15669, Inhibits Growth of Cultured Human Aortic Smooth Muscle Cells
Robert L. Bennett, Mahamad Navab, Linda L. Demer, and Alan M. Fogelman ......................................................... 360

Insulin Resistance, Glucose Intolerance, and Hyperinsulinemia: Hypertriglyceridemia Versus Hypercholesterolemia

Oxidized Low Density Lipoproteins Bind to the Scavenger Receptor Expressed by Rabbit Smooth Muscle Cells and Macrophages
Sylvie Dejager, Michele Mietus-Snyder, and Robert E. Pitas ........................................................... 371

Protection From Atherosclerosis in Vein Grafts by a Rigid External Support
Jean Batelleir, Michel Wassef, Regine Merval, Micheline Duriez, and Alain Tedgui .................................................. 379

Shear-Induced Platelet Aggregation Is Potentiated by Desmopressin and Inhibited by Ticlopidine
Marco Catanneo, Rossana Lombardi, Donato Bettega, Anna Lecchi, and Pier Mannuccio Mannucci .......................................................... 385

Decreased Postprandial Response to a Fat Meal in Normotriglyceridemic Men With Hypoalphalipoproteinemia
Michael Miller, Peter O. Kwiterovich Jr., Paul S. Bachorik, and Angeliki Georgopoulos .................................................. 393

Decreased Postprandial Response to a Fat Meal in Normotriglyceridemic Men With Hypoalphalipoproteinemia
Michael Miller, Peter O. Kwiterovich Jr., Paul S. Bachorik, and Angeliki Georgopoulos .................................................. 393

Protection From Atherosclerosis in Vein Grafts by a Rigid External Support
Jean Batelleir, Michel Wassef, Regine Merval, Micheline Duriez, and Alain Tedgui .................................................. 379

Localization of von Willebrand Factor Binding Domains to Endothelial Extracellular Matrix and to Type VI Collagen
Cécile Denis, Dominique Banuch, Cay M. Kiely, Nadine Ajzenberg, Olivier Christophe, and Dominique Meyer ................................. 398

Tumor Necrosis Factor-α Stimulates ICAM-1 Expression in Human Vascular Smooth Muscle Cells
Thierry Couffinhal, Cécile Dupleâ, Laurence Labat, Jean-Marie Daniel Lamaziere, Catherine Moreau, Olga Printseva, and Jacques Bonnet ........................................ 407

Plasminogen Activator Inhibitor Activity in Diabetic and Nondiabetic Survivors of Myocardial Infarction
Rosaire P. Gray, David L.H. Patterson, and John S. Yudkin ................................. 415
Increased In Vivo Production of Thromboxane in Patients With Sickle Cell Disease Is Accompanied by an Impairment of Platelet Functions to the Thromboxane A₂ Agonist U46619
Isabelle Foulon, Dora Bachir, Frédéric Galacteros, and Jacques Maclouf .................................................. 421

Plasma Triglyceride and LDL Heterogeneity in Familial Combined Hyperlipidemia
John E. Hokanson, Melissa A. Austin, Alberto Zambon, and John D. Brunzell ............................................. 427

Prostacyclin Agonists Reduce Early Atherosclerosis in Hyperlipidemic Hamsters: Octimibate and BMY 42393 Suppress Monocyte Chemotaxis, Macrophage Cholesteryl Ester Accumulation, Scavenger Receptor Activity, and Tumor Necrosis Factor Production

Cell-Derived Unesterified Cholesterol Cycles Between Different HDLs and LDL for Its Effective Esterification in Plasma
Yadong Huang, Arnold von Eckardstein, and Gerd Assmann .......................................................... 445

Workshop Summary

Report on the Workshop on Diabetes and Mechanisms of Atherogenesis: September 17th and 18th, 1992, Bethesda, Maryland
Godfrey S. Getz .......................................................... 459

Errata ........................................................................ 465
News From the American Heart Association .................................................. A467
AHA Meetings Calendar .................................................................. A468
