In the article, “Laminar Shear Stress Regulates Endothelial Kinin B1 Receptor Expression and Function: Potential Implication in Atherogenesis” by Duchene et al, which appeared in the November 2009 issue of the journal (Arterioscler Thromb Vasc Biol. 2010;29:1757–1763; DOI: 10.1161/ATVBAHA.109.191775), there were a few minor errors in the final printed version of the article:

1. Page 1757, Abstract, 2nd line of Conclusion, should have appeared as: “… whereas physiological high LSS is a powerful repressor of this inflammatory receptor, low LSS occurring at sites of atheroma…”

2. Page 1761, 1st column, 3rd paragraph, last line, “and low LSS alike” should have been removed at the end of the sentence.”

The online version has been corrected.

The publisher sincerely regrets the errors.
