## Quick Reference Guide Comparing the AHA Licensing Agreements

Copyright, Licensing, Open Access, and the AHA/ASA Journals

<table>
<thead>
<tr>
<th>Type of Agreement</th>
<th>Reader Reuse of Articles</th>
<th>Reader Access of Articles</th>
</tr>
</thead>
</table>
| Creative Commons Attribution Non-Commercial-NoDerivs License (CC-BY-NC-ND) | • Only allows others to download your works and share them with others as long as they credit you.  
• Cannot change them in any way or use them commercially.  
http://creativecommons.org/licenses/by-nc-nd/4.0/ | • Freely available to readers as soon as it’s published in an AHA/ASA journal (no AHA membership or subscription is required to access it).  
• Designated Open Access on publication |
| Creative Commons Attribution License (CC-BY) | • Lets others distribute, remix, tweak, and build on your work, even commercially, as long as they credit you for the original creation.  
• Most accommodating of licenses offered.  
• Recommended for maximum dissemination and use of licensed materials.  
• Note that authors funded by RCUK or Wellcome Trust may choose the CC-BY license if they agree to pay the article publication charge (APC) and commercial reuse of the article isn’t a factor.  
http://www.rcuk.ac.uk/research/openaccess/policy  
http://creativecommons.org/licenses/by/4.0/ | • Freely available to readers as soon as it’s published in an AHA/ASA journal (no AHA membership or subscription is required to access it).  
• Designated Open Access on publication |
| Creative Commons Attribution Non-Commercial License (CC-BY-NC) | • Lets others remix, tweak, and build on your work noncommercially.  
• Although their new works must also acknowledge you and be noncommercial, they do not have to license their derivative works on the same terms.  
• Note that authors funded by RCUK or Wellcome Trust should choose the CC-BY-NC license if they do not agree to pay the APC (instead, page, color, and additional word/page charges would apply) or they would like to limit the commercial reuse of their content.  
http://www.rcuk.ac.uk/research/openaccess/policy  
http://creativecommons.org/licenses/by-nc/4.0/ | • Access for readers is limited to AHA members or subscribers for the first 6 or 12 months after publication in an AHA/ASA journal.  
• Designated Open Access once access is made freely available to all readers. |

A detailed informational document about copyright, licensing (via the Creative Commons licenses), and Open Access for the American Heart Association/American Stroke Association journals is available at:  
http://www.ahajournals.org/site/openaccess.
